

## Real or Fake? Spider Chart Detective Task

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Item I'm Investigating: \_\_\_\_\_ i.e. Coin, Painting, Jewellery

### Your Task:

You're a **detective**! You need to decide if something is **real or fake** by looking for clues.

---

### Step 1: What are the clues?

Write down 5 or 6 things you can look at to help you decide if the item is real.

For example:

- Is it very old, what makes you think it is old?
  - Is there a signature, or a marking?
  - What is it made from?
  - Does it match other real ones?
  - Where did it come from
-

## Step 2: Make Your Spider Chart!

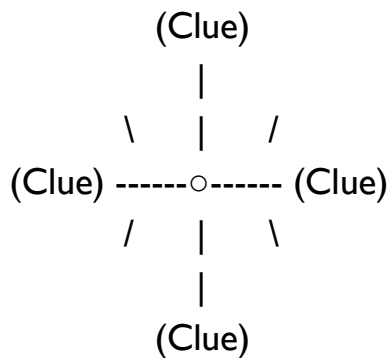

### Instructions:

1. Use the chart below.
2. Write one clue at the end of each leg.
3. Colour in each leg to show how strong the clue is.
  - **Closer to the outside** = strong clue
  - **Closer to the middle** = weak or missing clue

TIP: You can draw this with a pencil and ruler or use graph paper. Make a small circle in the centre and draw 5 or 6 legs like a star/snowflake.

---

### Spider Chart Template:

---

**Extra Challenge:**

Write 1 or 2 sentences about what you discovered.

**1. Do you believe your item to be Real or Fake?**

**2. Which clue helped you the most?**
